

# I am trying to install FLASH but I keep getting an error! HELP!

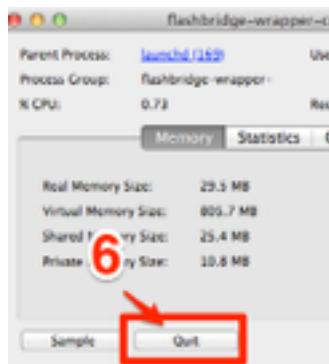

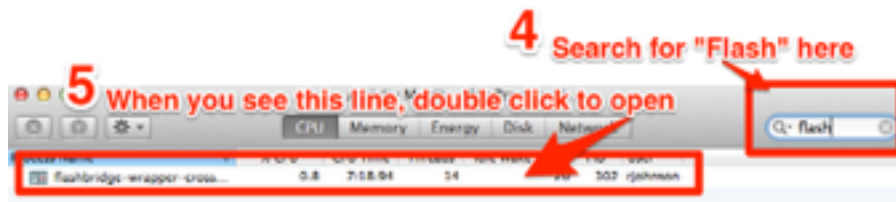

If this is the error you see follow the 6 easy steps below to quit the Flash Player.

If any other applications are listed in the pop up (Safari, Firefox) just quit them)

To quit the Flashbridge-wrapper do the the following.

Select applications > Utilities > Activity Monitor

In the activity monitor search for flash

Double click the flash bridge wrapper to open.

Quit the activity.

Return to the flash installer and complete the install.
